

Dayboro Park

Updated Concept Design

Community Engagement Summary

November 2025

Acknowledgment of Traditional Custodians

City of Moreton Bay acknowledges the Jinibara, Kabi Kabi and Turrbal peoples and pays respects to Elders, past, present and emerging. Council recognises that City of Moreton Bay has always been a place of cultural, spiritual, social and economic significance to its Traditional Custodians. Council is committed to reconciliation and working in partnership with Traditional Custodians and Aboriginal and Torres Strait Islander communities to shape a shared future for the benefit of all communities within the city and beyond.

Transforming the heart of Dayboro

Located in the heart of Dayboro, Dayboro Park is a much-loved local hub and host to many community events and activities.

City of Moreton Bay is upgrading and expanding Dayboro Park by combining the existing Roderick A. Cruice Park with newly acquired surrounding land.

This project aims to:

- provide a welcoming space where people can relax, socialise and play
- improve amenity in the town centre
- create an inviting destination that attracts both locals and visitors.

Dayboro Markets

In April 2025, we shared an updated concept design with the community and invited feedback over four weeks.

Engagement snapshot

Between 8 April and 13 May 2025, we had:

651 visitors to the project web page

7 community responses via online form and email

1 meeting with representatives from key park user groups

Key feedback that we heard included:

- support for the updated design from key park user groups
- requests for improved toilet facilities within the park
- some concern or dissatisfaction with the updated design from two respondents
- suggestions to enable the Memorial Green to better accommodate larger crowds at events.

How we engaged

Over the past four years, we have worked closely with the Dayboro community to shape a vision for this important park upgrade.

2021 - Initial consultation: We collaborated with residents and local businesses to identify what makes Dayboro unique and explore ideas for the park's future.

2024 - Draft concept design feedback: A draft concept design was released for feedback. Some concerns were raised about the proposed removal of the central car park and streetscape changes along Williams Street.

Updated concept design

In response to community feedback, we updated the design to better reflect local values and priorities. Key updates included:

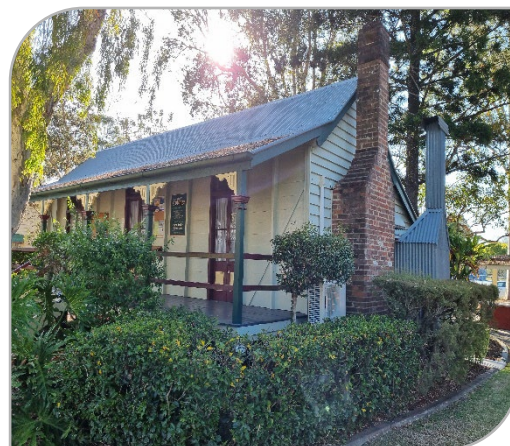

- a focus on changing two key areas in the park - the Community Green and Memorial Green
- upgraded park amenities to support a range of uses, including community events and recreational activities
- retention of the existing car park and storage shed.

From 8 April to 13 May 2025, we invited the community to review and provide feedback on the updated design (see Appendix). The consultation was promoted via direct stakeholder and project subscriber emails, the project webpage, and corflute signage and flyers in key community locations.

Prior to opening consultation, Council met with park user groups to present the updated design and highlight the changes since the previous draft.

The meeting was attended by representatives from:

- Dayboro District Progress Association Inc.
- Dayboro Historical Society
- Hay Cottage
- Dayboro War Memorial Association
- Queensland County Women's Association Dayboro.

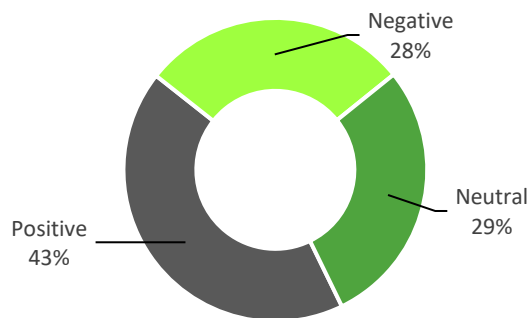

Hay Cottage located in the park

What we heard

We received seven submissions in total:

- three **positive**
- two **negative**
- two **neutral** (offering constructive suggestions)

Summary of feedback received during public notification period

Key feedback

Support for updated concept design

Three responses supported the updated concept design and appreciated the changes made in response to earlier feedback.

“Much better than earlier drafts. More picnic tables would be good.”

Community member

Dissatisfaction with updated concept design

Two responses expressed dissatisfaction. One described the project as an unnecessary use of Council funds, while another felt the revised concept was underwhelming compared to earlier versions.

“Rather underwhelmed given what was discussed over a year ago!”

Community member

Improved toilet facilities

Park user groups and one community member highlighted the need to upgrade toilet facilities. While this upgrade is outside the current project scope, we acknowledge that this is a priority for future planning.

“As our current toilet facilities have not been upgraded in over 20 years, it would seem prudent to include an upgrade or even refurbishment of the existing toilets in this update which would also enhance the goal of Council to attract visitors to this area.”

Community member

Memorial Green upgrades

The Dayboro War Memorial Association provided detailed feedback regarding the Memorial Green. They expressed concern

about the removal of the stage without a suitable replacement and requested:

- expanded green space to better accommodate larger event crowds
- adequate power supply for events
- replacement of the existing shade cloth behind the Cenotaph
- installation of an additional flagpole
- maintained vehicle access to the Memorial Green.

Other comments

Other feedback included:

- request for pickleball courts next to the tennis courts
- need to address drainage issues in the Community Green
- desire for more picnic tables.

“I believe near the tennis courts should be pickleball courts.”

Community member

Next steps

Thank you to everyone who provided feedback on the updated concept design. Your feedback is being reviewed and considered as we prepare the detailed design. In deciding what to include in the design of the park, we will also consider best practice landscape design principles, site constraints, and project budget.

Updates on the project will be shared via the Your Say Moreton Bay project webpage: moretonbay.link/dayboro-park-upgrade.
